2nd Medical Convention Special Supplement

GREAT SUCCESS

The Second Medical Convention held on the 14th to 18th August 1969 was a tremendous success. There has never been such enthusiasm and participation by so many doctors, especially the general practitioners, at any of the previous S.M.A. functions. Altogether nearly 270 registered for the Convention but on the first Sunday afternoon over 300 attended the lectures. The interest shown by the general practitioners shows the need for an academic body for the GPs.

ception in the afternoon. the 150th Anniversary of Gwee Ah Leng.

The Convention was Singapore and to establish opened by Mr. P. Cooma- goodwill between the raswamy, Speaker of Par- Ministry of Health and liament on the 14th August the S.M.A., the President following a short tea re- presented twenty wheelchairs to the Director of Numerous messages were Medical Services, Dr. Ho read at the opening cere- Guan Lim, on behalf of mony and the foreign the Association. The cereguests were introduced to mony was followed by the the participants. To mark S.M.A. Lectureship by Dr.

Dr. W.O. Phoon, President of the SMA receiving a congratulatory banner from Prof. Khaw of the Chinese Medical Association, Taiwan.

Mr. P. Coomarasamy, Speaker of the Singapore Parliament opening the 2nd Medical Convention.

Topics of interest to General Practitioners featured in the lectures to the doctors. Two public forums were held during the Convention. The first was on "The Future of Medicine in Singapore" and there was a capacity audience. It is hoped to produce a small booklet containing the talks given at the forum. The second forum on "Heart Disease and You" was equally well attended. Nearly four hundred people turned up, many had to stand or sit on the floor, and many more regrettably had to go away as there was not even standing room.

The success of the forums and the Medical Convention augurs well for the future of medical care in this country. The keenness of the lay public to know latest developments in the care of their health is most commendable. Medical Conventions stir up interest, foment controversy, make contacts, reacquaintances, and

generally set things humming which would otherwise be impossible. Gathering data and knowledge from journals and tapes do have their place in the continuing postgraduate training of the doctor, but tapes do not talk back and books sometimes have a tendency to act more as soporofics, so it is usually the light banter at conventions which sharpens the intellect of those attending.

Not the least important amongst the functions in a medical convention are the social activities. very successful dinner and dance was held at the Tropicana in conjunction with the 4th Singapore/ Malaysia Congress of The half-hour Medicine. informal teas between lecture sessions provided opportunities for many GPs to meet old colleagues and make new friends. The informal dinner organised by the Alumni to which registered participants were invited was also a success.

A large number of overseas visitors attended the opening ceremony. W ewere honoured by the presence of a Malaysian delegation headed by the M.M.A. President Dr. Lim Kee Jin. From Australia, Dr. Edgar Thomson, Secretary of the A.M.A. read a short message announcing plans for the affiliation between the A.M.A. and There were the S.M.A. also the representatives from Ceylon, Hongkong, Taiwan, Japan and Thai-

Regional Co-operation

Singapore and Malaysia will co-host Commonwealth Medical Association's Conference next year. This will mark a significant step forward in co-operation between all the Commonwealth medical bodies, particularly of this region.

The S.M.A. is also to be affiliated to the Australian Medical Association, and the New Zealand Association. Steps have already been taken to finalise the affiliation and it now only awaits ratification before the affiliation is formalis-

Dr. Colin Marcus, a past President of the Singapore Medical Association and also a past President of the Society of Private Practice chairing one of the lecture sessions.

Dr. Tan Chee Khoon one of the registrants, a well known M.P. of the Malaysian Parliament and a past President of the Malaysian Medical Association is seen questioning the speaker on his lecture.

Lecture Session

The most successful aspect of the 2nd National Medical Convention was the lecture sessions for general practitioners which was attended by a packed hall of 268 registrants. This is the first time that such a large gathering including general practitioners attended such a course in Singapore and may be considered an indication for the need of an academic body for practitioners.

A section of the crowd at the New Lecture Theatre in the Faculty of Medicine

Dr. Charles Toh projecting a slide in his lecture to the registrants.

MULTIVISION IS HERE!

Thousands of people will see a new revolutionary technique in motion pictures — "Multivision" to be staged in Singapore on October 28 through 30 for three nights at the Singapore Conference Hall. The shows will be in aid of the Singapore Children's Society.

"Travelogues in Multivision" is sponsored by Kodak (Malaya) Limited in co-operation with Air France/UTA French Airlines and is being held under the distinguished patronage of The Honourable Minister for Social Affairs, Enche Othman Wok. All proceeds from

A DOC'S LIFE!

"If anyone thinks that the surest way to get into debt quickly is by riotous living,

drinking and betting on horses, he is only partly right. There is just as certain a way and that is to be a doctor, work

hard for eighteen hours a day, drive for miles over bad roads to see patients and give them expensive drugs.

It was true the people were poor. Yet the liquor store in town supported three employees

and their families and made a profit for the government be-sides. There was a motion picture theatre also, which ran

shows two nights a week, and

ment on I would be more strict about collecting money."

by E. A. Brasset

Children's Society. Tickets at \$2/- will be available from October 10 onwards at C. K. Tang, Robinson's, Cold Storage, Kodak Copy Center, UTA office and Kodak (Malaya) Limited.

the sales of tickets will be donated to the Singapore

Singapore will be one of the few cities in Asia to see the new motion technique. For Multivision is the showing of three different screens simultaneously by the use of six slide projectors plus one motion picture projector, the whole accompanied by appropriate stereo music and sound.

This unique presentation brings out highly developed techniques of fade-in and fade-out of images and sounds, and has been classified as spectacular by all who have seen it in Europe and America.

So do support a worthy cause, and give all the family a treat at the same

The Convalescent Home of the Singapore Children's Society is adding a new wing with space for a further 20 beds in the coming year. This project is estimated to cost nearly \$100,000. The Home at Changi (next to the Red Cross Home) accepts children who are convalescing from serious illness, like cardiac complaints, nephritis, and severe malnutrition. Most of these cases come from the Mistri Wing after being discharged from hospital.

it made a profit. True, I knew clergymen lived meagrely, but at least they lived. The fault must lie with myself. I resolved that from that mo-

PUBLIC FORUMS

RECORD CROWD

The public forums on "The Future of Medical Practice in Singapore" and "Heart Diseases and You' were highly successful. The only regret was that many had to be turned away while others had to sit on the floor as the Pathology Lecture Hall was filled to capacity.

Dr. Ho Guan Lim speaking on the "future of hospitals in Singapore" stressing a point with Prof. V.K. Pillay, Mr. Yahya Cohen and Dr. Nalla Tan, the chairman looking on.

Dr. Edgar Thomson, Secretary of the Australia Medical Association announcing impending merger of AMA and SMA

A section of the crowd which filled the lecture hall on "Heart Diseases and You". Note: The crowd standing at the back of the hall and jamming the entrance.

IN SUSTAINED-RELEASE **REPECAPS***

FOR UNINTERRUPTED 24-HOUR SUPPLY OF VITAMINS AND MINERALS

Sugar Coating Outer Core:

> Contains part of the formula for rapid disintegration to supply the immediate needs for the first 6-8 hours Vitamin layer

A thin layer separating the vitamins from the minerals so that the minerals will not chemically act on the vitamins.

Mineral layer

Time barrier enteric-coating to be disintegrated only after about 6 hours. Inner Core:

> Contains other part of the formula to be released only after about 6 hours to supply the next 6-8 hours needs of the body.

REVICON FORTE:

is a complete, high potency multivitamin-mineral preparation which provides all the essential vitamins and minerals including intrinsic factor concentrate U.S.P., Vitamin B12, hematinics, amino acids and lipotropics that are necessary for normal health.

INDICATIONS:

Prenetal, postnatal, pre-and postoperative cases, Infections, convalescence and other stress conditions; nutritional deficiencies and anemias; and as a nutritional supplement for growing children, adolescents, nursing mothers, adults and geriatrics.

DOSAGE:

One REVICON FORTE repecap in the morning and another in the evening will furnish a continuous and sustained supply of vitamins and minerals for an uninterrupted therapeutic effect lasting 24 hours.

Available in bottles of 30, 120 and 500 repecaps.

Dr. Gwee Ah Leng, the editor of the Singapore Medical Journal is seen chatting with Dr. Keshmahinder Singh of Malaysia and Dr. Wong Kin Yip of Singapore. Also in the picture are Dr. Colin Marcus and Dr. Collier of the Ceylon Medical Association.

Informal Lunch

The Singapore Medical Association was honoured by the attendance of Dr. Ho Guan Lim, the Director of medical services and Permanent Secretary to the Ministry of Health at the informal lunch held on 17th August, 1969. Over a hundred registrants took the opportunity to meet old colleagues some of whom they have not seen for many years.

Other social functions of the Convention included a tea reception at the Opening Ceremony. This was followed by a dinner and dance held at the Tropicana and half hourly informal tea between sessions.

A section of the registrants at the informal lunch.

Dr. Ho Guan Lim, DMS and Perm. Sec. Health is seen here with Dr. Fred Pais and Dr. Tay (Dr. Tay is the oldest graduate to attend the Convention).

Dr. Lim Kee Jin, the President of the Malaysian Medical Association is seen chatting with Dr. Peter Lee, the President of the Hongkong Medical Association and Dr. Lee from Muar.

What's the secret? Dr. Andrew Chew, Medical Superintendant of K.K.M.H. whispering to Mr. Choo Jim Eng while Dr. Lim Kee Jin (back to camera) discusses a point with Dr. Leong Hon Koon, Dr. Charles Toh, and Dr. Albert Wee.

Dr. S. Rasanayagam with Dr. Teng Peng Meng and Dr. L.H. Thung.

Personalities at the Convention

Dr. R. W. ROBERTS

Dick Roberts the lanky "middle-aged" representative of the Royal Australian College of General Practitioners was one of the most popular of the foreign visitors. He stayed two weeks in Singapore during which time he spared no effort to get to know our people and the problems facing the GPs in this part of rhe world in their attempt to establish an academic body.

His sense of humour and his willingness to try everything was all the more remarkable because all the while he had a severe back ailment which finally caused him to be packed to bed in one of our orthopaedic wards. He had to be flown home and was loaded on to the plane with the aid of a vehicle loader. Despite the agony of the pain in his back Dick Roberts could still see the humour of the situation. Dick was accompanied on his trip here by his charming wife Raia Roberts

Prof. BRYAN GANDEVIA

Bryan Gandevia is no stranger to this part of the world having worked in Tan Tock Seng Hospital as a visiting consultant for some months. His many friends were very glad to see him again and he had a full programme while he was here although this was slightly marred by an upset stomach. Prof. Gandevia has a keen interest in medical history and hopes to see a society on medical history formed soon in Singapore. He helped to look after Dr. Roberts on his flight back to Perth.
