

PRIMARY CARE PAGES (PCP)

THE 'GOOGLE' FOR YOUR PRIMARY CARE NEEDS

By Agency for Integrated Care

Yes! Expect to land onto the revamped Primary Care Pages (PCP) with a fresh new look and enhanced functions as you log in today. This improved user interface supports you in caring for your patients as a one-stop resource hub. It is also a great place to find updates on GP-centric schemes, initiatives and events.

AIC conducted one-on-one interviews with regular PCP users to find out their needs. By bridging the information gap, PCP supports your practice with the relevant resource.

Here's a short tour of the new PCP.

AIC SAYS

ENHANCED FUNCTIONS

- **Mobile friendly interface:** Full display of information on your mobile device without the hassle of zooming or pinching the page.
- **Quick Links section:** Fret not if you forget the URL of frequently used healthcare portal, e.g. MOH Healthcare Claims Portal (MHCP) or need quick access to important information such as the vaccination guide and MOH circulars. Help is just 1 click away.
- **Customised Contact-Us forms:** Specially created forms based on your needs or enquiries.

On top of these new and enhanced functions, get more Primary Care related information under **'Practice Management'** and **'Patient Care'** to keep abreast of the latest happenings in the healthcare landscape.

NEW FUNCTIONS

- **Automated email acknowledgement:** Have peace of mind that you successfully registered for an event with a confirmation email. Also, you will receive a reminder email when the event draws near, so you don't have to worry about missing the event.
- **Capture your particulars for registrations:** Save the hassle of filling the event registration form when you are logged in.
- **GP Forum (under GP community):** A platform for fellow GPs to chat and interact with each other.
