Medical  
Association

2 College Road, Level 2 Alumni Medical Centre, Singapore 169850  
Tel: (65) 6223 1264

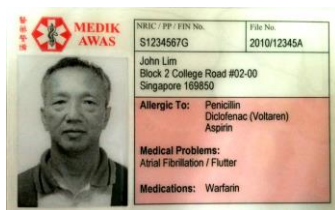

**PREVENTS MEDICAL ACCIDENTS**

醫藥警備確保醫療安全

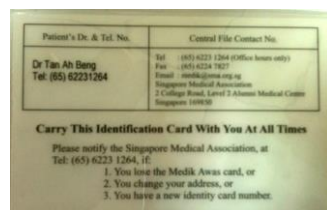

## What is Medik Awas?

Medik Awas is a community service launched in 1970 under the auspices of the Singapore Medical Association (SMA). It aims to prevent medical mishaps by alerting medical and dental personnel to any specific medical problems of registrants through the use of identification devices, such as a card or an amulet.

## Why sign up?

A person known to be hypersensitive to a drug, such as penicillin or tetanus antitoxin, must be so identified, as administration of the offending drug can lead to a violent, if not fatal reaction. Similarly, a patient suffering from a chronic disease, like bleeding tendency or diabetes, should carry a warning message. In the event of an accident or complication of the disease, immediate recognition of his condition can save his life. Patients on long-term course of drugs, e.g. steroids or anticoagulants, are identified in the same manner, as the therapy itself may give rise to hazardous side-effects.

All these patients and others with different hidden problems should enrol with Medik Awas and carry an identification card as a protection in an emergency. If a patient is unable to tell his medical history after an accident or sudden illness, the card may just save his life.

## How to enroll?

In order to ensure accurate certification, only a medical or dental practitioner can enrol a patient in the Medik Awas scheme. A patient is therefore advised to see his doctor for registration.

A Medik Awas form is available with one's doctor, hospitals and polyclinics. It can also be downloaded from the SMA's website at <http://www.sma.org.sg/publicinterest/index.aspx?ID=85>

Completion of the Medik Awas form is to be done by the doctors. Once completed, the patients should submit the application to SMA. Please mail the completed and signed Medik Awas form, with relevant fees and two passport-sized photos to:

Medik Awas Department  
Singapore Medical Association  
No. 2 College Road  
Level 2 Alumni Medical Centre  
Singapore 169850

For further enquiries, please contact our staff at:  
Tel: (65) 6223 1264 or drop us an email at [medik@sma.org.sg](mailto:medik@sma.org.sg)

## Registration Fees

The registration fees (*inclusive of GST*) are as follows:

Registration and Identification Card	\$30
Registration, Identification Card and Amulet	\$40
Renewal / Replacement of Card	\$15

## After Enrolment

The patient will receive a laminated Medik Awas card within 4-6 weeks by mail. The card will bear the patient's name, residential address, NRIC No. and the nature of his allergies and/or medical problem as well as his doctor's name & contact number.

The patient is advised to carry this card at all times and show it to a doctor or dentist during all visits.

Due to space constraints, the amulet (pendant) can only bear limited information. Patients with long lists of allergies or medical problems are advised to apply for the card only.
