

Did this student give up due to lack of funds?

You can help prevent this!

The pursuit of a dream can be financially difficult. The SMA Medical Students' Assistance Fund, a programme under the SMA Charity Fund (SMACF), supports the living expenses of medical students in need, allowing them to focus on what's important – *being a good doctor*.

Apart from financial assistance bursaries, SMACF also provides health and public health-related education, and promotes volunteerism within the medical community. In 2013, SMACF provided financial assistance to 20 medical students, each receiving a sum of \$4,800 for a year.

We need your help!

Donations enable SMACF to carry out its work, including the SMA Medical Students' Assistance Fund. Online donations can now be made through the SG Gives Charity Donation Portal (<http://www.sggives.org/smacf>), where SMACF is listed. As SMACF is an approved Institution of a Public Character, cash donations to SMACF qualify for a tax deduction of 2.5 times.
