

GPCONNECT: CONNECT. INTEGRATE. TRANSFORM.

By **Agency for Integrated Care**

This article is written in collaboration with MOH Holdings.

GPConnect is an IT system specially designed by general practitioners (GPs) to support your clinical processes. GPConnect comprises a customised Clinic Management System (CMS) and an Electronic Medical Records (EMR) solution.

GPConnect helps you to better care for your patients and monitor their progress. With its links to many national systems, GPConnect facilitates the seamless exchange of relevant clinical information between GPs and other healthcare providers. This improves the efficiency of your clinic while ensuring an integrated continuum of patient care. In addition, claims and submissions to participate in various national schemes can be made more conveniently through GPConnect.

Key Functionalities of GPConnect

Clinic Management System (CMS)

Registration

Dispensing

Results & Referrals

Billing & Payments

Third Party Claims

Clinic Administration

EARLY ADOPTER PROMOTION AVAILABLE!

GPConnect will be available from the middle of 2017, but an early adopter promotion is available now at \$50 per month (for up to three years) for CMS and EMR capabilities, including full helpdesk support. The promotion also includes IT equipment and broadband grants to help you get started. For more information, call MOHH at **6679 3068** between 9am and 6pm on weekdays, send an email to GPIT@mohh.com.sg, or visit the MOHH GPConnect booth at the GP Townhall* on 9 July at Suntec Convention & Exhibition Centre from 12.15pm to 4.30pm.

* Please visit Primary Care Pages (<http://www.primarycarepages.sg>) for more information.
