

READ SMJ ONLINE – ANYTIME, ANYWHERE

Do you know that the Singapore Medical Journal (SMJ) is upgrading its website and changing its access policy from 1 July 2016?

Accessing SMJ articles on your computer and on-the-go will be that much easier with our newly revamped website. Besides being more user-friendly and aesthetically pleasing, the website will also have an improved menu structure, search function and mobile-responsiveness, so that readers can readily access information — anytime, anywhere.

With this upgrade, SMJ will be changing its access policy from Hard Copy to Online-only (i.e. electronic access) starting 1 July 2016. This means that SMA members who are currently receiving Hard Copy and wish to continue to receive Hard Copy will need to opt in for that resource by 30 June 2016.

Remember, online access is a great resource. You will be able to search for articles with ease, read on-the-go, or download the pdf for reading later. Plus, it saves the environment and the Journal costly printing. If you are a Hard Copy recipient, please consider Online-only.

If you wish to opt in for Hard Copy Delivery beginning July 2016, please:

1. Go to <https://www.sma.org.sg/smjoptin> to opt in for hard copy; OR
2. Contact Ms Uthara Nair at email: utharanair@sma.org.sg with the subject header, Opt-in For Hard Copy Delivery, or Tel: 6223 1264.
