SMA Internet Training Feb 2001

Thank you everyone, for the overwhelming response to the Internet courses in February 2001. The response was so good that we've opened up another two classes to cater for the demand. With such courses, we hope that Members will be more encouraged to harness digital empowerment and enhance the ability to add value to your practices.

We intend to have another session of Internet Training in April, so do look out for it!

Locum Online!

Many members have written in to ask for Locum to be placed online, chiefly for convenience and having real-time information at one's fingertips. The IT Committee has heard you, and is pleased to present to you... Locum Online. It commences in January 2001 and Locum posting remains free for SMA Members only. Non-members pay \$15.45 per month. Look out for more details in the circular accompanying this month's issue of the SMA News!
